MUHAMMAD MUDASSAR

Full Stack Developer | MERN
contacmudassar@gmail.com | +92 3071266060 | LinkedIn | GitHub

PROFESSIONAL SUMMARY

Full Stack MERN Developer with hands-on experience with building web applications and AI-powered websites, with practical experience integrating AI APIs into production-ready applications.

CORE SKILLS

HTML • CSS • JavaScript • TypeScript • Tailwind CSS • React.js • Node.js • Express.js • MongoDB • Next.js • Supabase • SQL • Python

PROJECTS

Morning Briefing Agent https://morning-brief-frontend.vercel.app/

MERN Stack + Google Gemini AI + Telegram Bot API

- Built a website that delivers a personalized AI morning briefing to users via Telegram every day at their chosen time, covering live weather, top news headlines, and motivational quotes.
- Developed Node.js/Express backend with MongoDB, JWT authentication, node-cron scheduler firing every minute with timezone-aware user matching, and integrated Google Gemini 1.5 Flash to generate natural, human-written briefing summaries.
- Implemented Telegram Bot for delivery and account linking, OpenWeatherMap and NewsData.io API integrations, and a React/Vite dashboard for managing preferences and viewing briefing history.

Expenses Tracker https://expenses-tracker-one-rust.vercel.app

Personal Finance Management Web Application | React · Vite · Tailwind CSS · Chart.js

- Built a finance tracking tool with expense categorization, budget management, and visual dashboards using Chart.js (pie charts, circular progress bars).
- Implemented React Context API for global state management and local storage for data persistence across sessions.
- Delivered dark mode, responsive design, and seamless category deletion for an optimized user experience.

TripWise – Travel Planner https://trip-wise-bay.vercel.app

Travel Planning Web Application | React · Vite · Tailwind CSS · Framer Motion · React Router

- Developed a full-featured travel planner with trip management, dynamic packing/to-do lists, itinerary planning, and a countdown timer.
- Integrated Framer Motion for smooth animations and React Router v7 with future flags for seamless navigation.
- Supported dark/light mode and fully responsive design with local storage for persistent trip data.

EDUCATION

Bachelor of Science in Information Technology (BS-IT) | CGPA 3.45 / 4.0
Superior University Sargodha (2022 – 2026)
